

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently amended) A flexible container comprising:
 - a flexible front sheet and a flexible rear sheet attached to one another along at least one edge[[],];
 - a container port comprising a nozzle, which has an internal diameter, integrally molded to an attachment flange, which is disposed between the flexible front sheet and flexible rear sheet; wherein the attachment flange comprises two ends[[],]; and
 - a first attachment flange layer comprising an interior surface and an exterior surface and a second attachment flange layer comprising an interior surface and an exterior surface attached to one another along at least one edge, which is located at one of the two ends[[],];
 - a center section located between the two ends; and
 - wherein the two interior surfaces are spaced apart from one another at the center section and converge at the two ends, and wherein a distance measured between the two ends at a point spaced apart from the container port is larger than the internal diameter of the nozzle.

2. (Previously presented) The flexible container of claim 1, wherein the first and second attachment flange layers are connected along a second edge.
3. (Previously presented) The flexible container of claim 2, wherein the two edges are creases formed from integrally molding the first and second flange layers.
4. (Previously presented) The flexible container of claim 1, wherein the attachment flange comprises a first opening adjacent the nozzle and a second larger opening away from the nozzle.
